

Regency House Nursing and Rehabilitation Center is the area's premier rehabilitation center for cardiac care, led by Ricardo Cordido, MD and Mark Whalen, PA-C

Our program includes individualized therapy programs that restore patients' independence, strength and mobility to care for:

- Congestive Heart Failure
- Heart valve repair or replacement
- Lifestart care
- Heart transplants
- Pacemaker placement or revision
- Angioplasty or Coronary Artery Bypass
- Acute Myocardial Infarction

Additionally, we provide patients and families education and support regarding their condition and medical care, as well as nutrition counseling, PT/ INR monitoring and access to an EKG on-site.
